

Tejon Ranch Landscape and Wildlife Solutions Lebec, California

Location: Lebec, Kern County, Ca.
Client: Tejon Ranch Company

Services Provided:

Statistical analysis for species habitat use and overlap, detailed analyses of species permeability and use of movement corridors, making estimates of feasibility of translocation and selective fencing.

Details of PIONEER Involvement:

Pioneer was hired to review all of the environmental documents prepared by Tejon Ranch and their various sub-consultants. Pioneer prepared a technical and detailed analysis of the habitat permeability of a host of species native to the 270,000 acre ranch. Pioneer prepared other technical reports on plans to capture and transplant mountain lions and to preclude feral pigs from leaving the ranch property. Pioneer served as an advisor to the president of the company regarding permit acquisition and compliance with environmental standards and permitting.
